### Auditors' Report to the Members

We have audited the annexed statement of financial position of Pak China Investment Company Limited ("the Company") as at 31 December 2017 and the related profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof for the year then ended, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Company's management to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards and the requirements of the Companies Ordinance, 1984. Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:

- a) in our opinion, proper books of accounts have been kept by the Company as required by the Companies Ordinance, 1984;
- b) in our opinion
  - i) the statement of financial position and the profit and loss account together with the notes thereon have been drawn up in conformity with the Companies Ordinance, 1984, and are in agreement with the books of account and are further in accordance with the accounting policies consistently applied except for the change as described in note 5 with which we concur;
  - ii) the expenditure incurred during the year was for the purpose of the Company's business; and
  - iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Company;
- c) in our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof conform with the approved accounting standards as applicable in Pakistan, and give the information required by the Companies Ordinance, 1984 in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 31 December 2017 and of the profit, its comprehensive income, its cash flows and changes in equity for the year then ended; and
- d) in our opinion, no zakat is deductible at source under the Zakat and Ushr Ordinance, 1980 (XVII of 1980).

### 1 STATUS AND NATURE OF BUSINESS

Pak China Investment Company Limited (the Company) was incorporated in Pakistan as a public limited company on 27 July, 2007. The registered office of the Company is situated at 13th Floor, Saudi Pak Tower, Blue Area, Islamabad. The Company is a 50:50 joint venture between the 'Government of China' and 'Government of Pakistan' through China Development Bank and Ministry of Finance, respectively. The main objective of the Company is to invest in the financial sector and infrastructure projects.

The Company commenced business after obtaining the Certificate of Commencement of Business, from the Securities and Exchange Commission of Pakistan (SECP), on 02 November 2007, and the permission to commence business from the State Bank of Pakistan (SBP), on 10 January 2008.

### 2 BASIS OF PRESENTATION

### **Basis of presentation**

These financial statements have been presented in accordance with the format prescribed by SBP's BSD Circular No. 4 dated 17 February 2006 and BSD Circular No. 7 dated 20 April 2010.

### **3** STATEMENT OF COMPLIANCE

3.1 These financial statements have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved Accounting Standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board and Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Ordinance, 1984 (the repealed Ordinance), provisions of and directives issued under the Companies Ordinance, 1984 (the repealed Ordinance) and Banking Companies Ordinance, 1962. In case requirements differ, the provisions and directives given in Companies Ordinance, 1984 (the repealed Ordinance, 1962 shall prevail.

The Companies Ordinance, 1984 has been repealed after the enactment of the Companies Act, 2017. However, as allowed by the SECP vide its Circular No. 23 dated 04 October 2017, these financial statements have been prepared in accordance with the applicable provisions of the repealed Companies Ordinance, 1984.

The State Bank of Pakistan has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and IAS 40, 'Investment Property' for Banking Companies through BSD Circular No. 10 dated August 26, 2002. The Securities and Exchange Commission of Pakistan (SECP) has deferred applicability of IFRS 7 "Financial Instruments: Disclosures" on banks and DFI's through S.R.O 411(1) / 2008 dated April 28, 2008. Accordingly, the requirements of these standards have not been considered in the preparation of these financial statements. However, investments have been classified and valued in accordance with the requirements prescribed by the State Bank of Pakistan through various circulars.

IFRS 8, 'Operating Segments' is effective for the Company's accounting period beginning on or after January 1, 2009. All banking companies in Pakistan are required to prepare their annual financial statements in line with the format prescribed under BSD Circular No. 4 dated February 17, 2006, 'Revised Forms of Annual Financial Statements', effective from the accounting year ended December 31, 2006. The management of the Company believes that as SBP has defined the segment categorization in the above mentioned circular, its requirements will prevail over the requirements specified in IFRS 8. Accordingly, segment information disclosed in these financial statements is based on the requirements laid down by the SBP.

## 3.2 Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The following standards, amendments and interpretations of approved accounting standards will be effective for accounting periods beginning on or after January 1, 2018:

- Classification and Measurement of Share-based Payment Transactions amendments to IFRS 2 clarify the accounting for certain types of arrangements and are effective for annual periods beginning on or after January 1, 2018. The amendments cover three accounting areas (a) measurement of cash-settled share-based payments; (b) classification of share-based payments settled net of tax withholdings; and (c) accounting for a modification of a share-based payment from cash-settled to equity-settled. The new requirements could affect the classification and/or measurement of these arrangements and potentially the timing and amount of expense recognized for new and outstanding awards. The amendments are not likely to have an impact on Company's financial statements.
- Annual Improvements to IFRSs 2014-2016 Cycle [Amendments to IAS 28 'Investments in Associates and Joint Ventures'] (effective for annual periods beginning on or after January 1, 2018) clarifies that a venture capital organization and other similar entities may elect to measure investments in associates and joint ventures at fair value through profit or loss, for each associate or joint venture separately at the time of initial recognition of investment. Furthermore, similar election is available to non-investment entity that has an interest in an associate or joint venture that is an investment entity, when applying the equity method, to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture. The amendments are not likely to have an impact on Company's financial statements.
- IFRIC 22 'Foreign Currency Transactions and Advance Consideration' (effective for annual periods beginning on or after January 1, 2018) clarifies which date should be used for translation when a foreign currency transaction involves payment or receipt in advance of the item it relates to. The related item is translated using the exchange rate on the date the advance foreign currency is received or paid and the prepayment or deferred income is recognized. The date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) would remain the date on which receipt of payment from advance consideration was recognized. If there are multiple payments or receipts in advance, the entity shall determine a date of the transaction for each payment or receipt of advance consideration. The application of interpretation is not likely to have an impact on Company's financial statements.
- IFRIC 23 'Uncertainty over Income Tax Treatments' (effective for annual periods beginning on or after January 1, 2019) clarifies the accounting for income tax when there is uncertainty over income tax treatments under IAS 12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax. The application of interpretation is not likely to have an impact on Company's financial statements.
- IFRS 15 'Revenue from contracts with customers' (effective for annual periods beginning on or after July 1, 2018). IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 'Revenue', IAS 11 'Construction Contracts' and IFRIC 13 'Customer Loyalty Programmes'. The Company is currently in the process of analyzing the potential impact of changes required in revenue recognition policies on adoption of the standard. The management has completed an initial assessment of changes required in revenue recognition policies on adoption of the standard and considers that the impact would not be significant.

- IFRS 9 'Financial Instruments' and amendment Prepayment Features with Negative Compensation (effective for annual periods beginning on or after 1 July 2018 and 1 January 2019 respectively). IFRS 9 replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The Company is currently awaiting instructions from SBP as applicability of IAS 39 was deferred by SBP till further instructions.
- Amendment to IAS 28 'Investments in Associates and Joint Ventures' Long Term Interests in Associates and Joint Ventures (effective for annual period beginning on or after January 1, 2019). The amendment will affect companies that finance such entities with preference shares or with loans for which repayment is not expected in the foreseeable future (referred to as long-term interests or 'LTI'). The amendment and accompanying example state that LTI are in the scope of both IFRS 9 and IAS 28 and explain the annual sequence in which both standards are to be applied. The amendments are not likely to have an impact on Company's financial statements.
- Annual Improvements to IFRS Standards 2015–2017 Cycle the improvements address amendments to following approved accounting standards:
  - IFRS 3 Business Combinations and IFRS 11 Joint Arrangement the amendment aims to clarify the accounting treatment when a company increases its interest in a joint operation that meets the definition of a business. A company re-measures its previously held interest in a joint operation when it obtains control of the business. A company does not re-measure its previously held interest in a joint operation when it obtains control of the business joint control of the business.
  - IAS 12 Income Taxes the amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognized consistently with the transaction that generates the distributable profits.
  - IAS 23 Borrowing Costs the amendment clarifies that a company treats as part of general borrowings any borrowing originally made to develop an asset when the asset is ready for its intended use or sale.

The above amendments are effective from annual period beginning on or after January 1, 2019 and are not likely to have an impact on Company's financial statements.

In addition, the Companies Act, 2017 was enacted on 30 May 2017 and SECP vide its circular 23 of 2017 has clarified that the companies whose financial year closes on or before 31 December 2017 shall prepare their financial statements in accordance with the provisions of the repealed Companies Ordinance, 1984. The State Bank of Pakistan has issued BPRD Circular No. 02 of 2018 dated January 25, 2018, 'Revised Forms of Annual Financial Statements', effective from the accounting year ended 31 December 2018. The 'Revised Forms of Annual Financial Statements' have changed / added certain disclosures. This format incorporates some of the amendments brought about by the Companies Act, 2017. Accordingly to the extent these amendments are incorporated in the new format, the requirements of the Companies Act, 2017 have been followed for 31 December 2017 financial statements. Other amendments, if incorporated in the format of financial statements for DFI's would result in additional disclosures.

### 4 BASIS OF MEASUREMENT

These financial statements have been prepared under the historical cost convention, except for certain investments which are revalued to their fair values, the defined benefit plan which is measured at present value and investments at associates which are stated using equity accounting.

### Measurement of fair values

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant observable and unobservable inputs and valuation adjustments. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques. The valuation of financial assets and financial liabilities are categorized and disclosed keeping in view the measurement requirements specified in note 3.1.

### 4.1 Critical accounting estimates and judgments

The preparation of financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experiences, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods. The areas where various assumptions and estimates are significant to the Company's financial statements or where judgment was exercised in the application of accounting policies are as follows:

### a) Classification / valuation of investments

For classification / valuation of investments, the Company follows the guidance provided in SBP circulars:

- Investments classified as 'held for trading', are securities which are acquired with an intention to trade by taking advantage of short term market / interest rate movements and are to be sold within 90 days of acquisition.
- Investments classified as 'held to maturity' are non-derivative financial assets with fixed or determinable payments and fixed maturity. In making this judgment, the Company evaluates its intention and ability to hold such investment to maturity.
- The investments which are not classified as 'held for trading' or 'held to maturity' are classified as 'available for sale'.

### b) Provision against non-performing loans and advances

The management reviews the loan portfolio to assess non-performing advances, expected recovery and provision required on a quarterly basis. While assessing this requirement various factors including the delinquency in the account, financial position of the borrowers, payment status of mark-up and principal, expected future cash flows of the business, security position and the requirements of the Prudential Regulations are considered.

The amount of general provision is determined in accordance with the relevant regulations and management's judgment as explained in note 10.4.

### c) Impairment of 'available for sale' equity investments

The management determines that 'available-for-sale' listed equity investments are impaired, when there has been a significant or prolonged decline in market value / fair value below its cost. Further unquoted investments are impaired when the investee's breakup value per share falls below the per share cost of investment. In making this judgment, the management considers, among other factors, the decline in market price below cost by 20%, as significant, and if the decline in market price persists for 9 months, as prolonged. In addition, the impairment may be appropriate when there is an evidence of deterioration in the financial health of the investee and sector performance, changes in technology and operational/financial cash flows. For debt securities impairment loss is determined on the basis of the Prudential Regulations of SBP.

### d) Provision for income taxes

In making the estimates for income taxes currently payable by the Company, the management looks at the current income tax laws and the decisions of appellate authorities on certain issues, and the appeals of the department, pending at various levels with the tax authorities.

### e) Operating fixed assets

In making estimates of the depreciation / amortization method, the management uses the method which reflects the pattern in which economic benefits are expected to be consumed by the Company. The Company reviews the useful lives and residual value of fixed assets on a regular basis and if there is a change in the expected pattern of consumption of the future economic benefits embodied in the assets, the method is changed to reflect the changed pattern. Such change is accounted for as change in accounting estimates in accordance with International Accounting Standard (IAS) 8 "Accounting Policies, Changes in Accounting Estimates and Errors". Any change in estimates in future years might affect the carrying amounts of the respective items of fixed assets, with a corresponding effect on the depreciation charge / amortization and impairment. During the year the Company has revised its estimate for depreciation on the building from 10% to 4%. Had the estimate not been revised the depreciation expense of the year would have increased by Rs. 2.396 million.

### f) Contingencies

The Company reviews the status of all the legal cases on a regular basis. Based on the expected outcome and lawyers' judgments, appropriate provision is made.

### g) Provision for staff retirement benefits

Provision for gratuity is determined using actuarial assumptions. Any change in the assumptions from actual results would change the amount of unrecognized gains and losses.

### 5 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, except for the changes as indicated below.

Amendments to IAS 7 'Statement of Cash Flow' became effective during the year. The amendments require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes. The management has completed an initial assessment of changes required in disclosures on adoption of the standard and considers that the impact would not be significant.

### 5.1 Functional and presentation currencies

These financial statements are presented in Pak Rupees which is the Company's functional and presentation currency.

### 5.2 Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement consist of cash and balance with treasury banks and balance with other banks in current and deposit accounts.

### 5.3 Lending's to / borrowings from financial institutions

The Company enters into transactions of reverse repos and repos at contracted rates for a specified period of time. These are recorded as under:

### Sale under repurchase agreement

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos), continue to be recognized in the statement of financial position, and are measured in accordance with accounting policies for investments. Amounts received under these agreements are recorded as repurchase agreement borrowings. The difference between the sale and repurchase price, is amortized as an expense over the term of the repo agreement.

### Purchase under resale agreement

Securities purchased under agreement to resell (reverse repo) are included in lending to financial institutions. The difference between the purchase price and the resale price is amortized over the period of the agreement and recorded as income.

Securities held as collateral are not recognized in the financial statements, unless these are sold to third parties, in which case the obligation to return them is recorded at fair value as a trading liability under borrowing from financial institutions.

### Other borrowings

These are recorded at the fair value of consideration received. Mark-up on such borrowings is charged to the profit and loss account on a time proportion basis.

### Other lending's

These are stated net of related provisions. Mark-up on such lending's is recognized in the profit and loss account on a time apportioned basis, except for the mark-up on impaired / delinquent lending's, which is recognized on a receipt basis.

### 5.4 Investments

Investments of the Company are classified as held to maturity and available for sale.

### Investment in associates

Interests in equity-accounted investees: The Company's interests in equity-accounted investees comprise of interests in associate and a joint venture. Associates are those entities in which the Company has significant influence, but not control over the financial and operating policies. A joint venture is an arrangement in which the Company has joint control, whereby the Company has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

ponum

Interests in associates and the joint venture are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the financial statements include the Company's share of the profit or loss and other comprehensive income of equity-accounted investee, until the date on which significant influence or joint control ceases.

### **Held-For-Trading**

These are securities, which are either acquired for generating profit from short-term fluctuations in market prices, interest rate movements and dealer's margin or are securities included in a portfolio in which a pattern of short-term profit taking exists.

### **Held-To-Maturity**

These are securities with fixed or determinable payments and fixed maturities, in respect of which the Company has a positive intent and ability to hold till maturity.

### Available-For-Sale

These are investments that do not fall under the held-for-trading or held-to-maturity, and investment in associate categories.

### Initial measurement

All regular way purchases and sales of investments are recognized on the trade date i.e., the date that the Company commits to purchase or sell the investment. Regular way purchases or sales of investment that require delivery of investments within the time frame generally established by regulation or convention in the market place.

Investments are initially recognized at fair value which includes transaction costs.

### Subsequent measurement

### Held-To-Maturity

These are measured at amortized cost using effective interest rate method, less any impairment loss recognized to reflect irrecoverable amounts.

### Available-For-Sale

Quoted securities classified as available for sale investments are measured at fair value. Any surplus or deficit arising thereon is kept in a separate account shown in the statement of financial position below equity and is taken to profit and loss account when realized upon disposal or when the investment is considered to be impaired.

Unquoted equity securities are valued at the lower of cost and break-up value. The break-up value of these securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. A decline in the carrying value is charged to the profit and loss account. A subsequent increase in the carrying value, up to the cost of the investment, is credited to the profit and loss account. Investment in other unquoted securities are valued at cost less impairment, if any.

Provision for diminution in the value of Term Finance Certificates and Sukuks are made as per the ageing criteria prescribed by the Prudential Regulations issued by SBP. Provision for diminution in the value of other securities are made for impairment, if any.

### 5.5 Advances

Advances are stated net of specific and general provisions. Specific provision is determined on the basis of the Prudential Regulations and other directives issued by the State Bank of Pakistan (SBP) and charged to the profit and loss account. Provisions are held against identified as well as unidentified losses. Provisions against unidentified losses include general provision against Consumer and Small Enterprise (SEs) loans made in accordance with the requirements of the Prudential Regulations issued by SBP and provision based on historical loss experience on advances. General provisions pertaining to overseas advances are made in accordance with the requirements of the regulatory authorities of the respective countries. Advances are written off when there is no realistic prospect of recovery.

Leases where the Company transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee are classified as finance leases. A receivable is recognized at an amount equal to the present value of the lease payments including any guaranteed residual value. Finance lease receivables are included in advances to the customers.

### 5.6 Operating fixed assets

### Property and equipment

These are stated at cost less accumulated depreciation and impairment, if any, except for freehold land, which is stated at cost.

Depreciation is calculated on the straight line method to write off the depreciable amount of each asset, over its estimated useful life, after taking into account residual values, if any. Depreciation on additions during the year is charged from the month of acquisition, or the date the asset is available for use, and on disposals, up to the month of disposal. The useful lives, residual values and depreciation methods are reviewed and adjusted, if appropriate, at each reporting date.

The costs of day-to-day servicing of property and equipment are recognized in profit or loss as incurred.

Gains and losses on disposal items of property and equipment are determined by comparing the proceeds from disposal with the carrying amount of property and equipment, and are recognized net within "other income" in profit or loss.

### Capital work-in-progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any. It consists of expenditure incurred and advances made in respect of operating fixed assets and intangible assets in the course of their acquisition, construction and installation.

### Intangible assets

Intangible assets having finite useful lives, are stated at cost less accumulated amortization and impairment, if any. These are amortized using the straight line method over their estimated useful lives. Intangible assets are amortized from the month when these assets are available for use. The useful lives, residual values and amortization methods are reviewed and adjusted, if appropriate, at each reporting date.

100mm

### 5.7 Impairment

### Impairment of available for sale equity investments

Available for sale quoted equity investments are impaired when there has been a significant or prolonged decline in their fair value below their cost. The determination of what is significant or prolonged requires judgment. In making this judgment, the Company evaluates, among other factors, the normal volatility in share price.

### Impairment in non-financial assets (excluding deferred tax)

The carrying amounts of non-financial assets are reviewed at each reporting date for impairment whenever events or changes in circumstances indicate that the carrying amounts of these assets may not be recoverable. If such indication exists, and where the carrying value exceeds the estimated recoverable amount, assets are written down to their recoverable amount. The resulting impairment loss is charged to the profit and loss account.

### **5.8** Taxation

### Current

The charge for current taxation is based on taxable income at the current rates of taxation after taking into account tax credits and tax rebates available, if any, and any adjustments to any tax payable, relating to prior years.

### Deferred

The Company accounts for deferred taxation using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes, and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization, or settlement, of the carrying amount of assets and liabilities. Deferred tax assets and liabilities, are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates that have been enacted or substantively enacted at the statement of financial position date.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax assets and any unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, carry forward of unused tax assets and unused tax losses can be utilized.

Deferred tax on surplus / (deficit) on revaluation of investments is charged / (credited) to the same account.

### 5.9 Provisions

Provisions are recognized when the Company has a legal or constructive obligation as a result of past events which makes it probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimates.

### 10 pmsort

### 5.10 Revenue recognition

### Advances and investments

Mark-up / return / interest income from loans, term finance certificates, bank deposits, government securities and reverse-repo transactions, is recognized using the effective interest rate method, except where recovery is considered doubtful, in which case the income is recognized on a receipts basis, in accordance with the requirements of the Prudential Regulations issued by the State Bank of Pakistan (SBP). Where debt securities are purchased at premium or discount, such premium / discount is amortized through the profit and loss account over the remaining period of maturity.

Gain / (loss) on sale of securities, is recognized in the profit and loss account at the time of sale of relevant securities.

### **Dividend income**

Dividend income is recognized when the right to receive the dividend is established.

### Fee, brokerage and commission income

Fee, commission and brokerage income is recognized as the services are rendered.

### **Rental income**

Rental income is recognized over the period of the rent agreement.

### 5.11 Staff retirement benefits

### Defined benefit plan

The Company operates an approved funded gratuity scheme for all its regular employees.

The amounts of post-employment benefits are usually dependent on one or more factors such as age, years of service and salary.

The liability recognized in respect of the gratuity scheme is the present value of the defined benefit obligation under the scheme at the balance sheet date.

The gratuity obligations are calculated annually by independent actuaries using the Projected Unit Credit Method. The most recent valuation in this regard was carried out as at 31 December 2017. The present value of the obligation is determined by discounting the estimated future cash outflows, using interest rates of high quality government securities that have terms to maturity approximating the terms of the related obligation.

Re-measurements, comprising of actuarial gains and losses, the return on plan assets excluding amounts included in net interest on the net defined benefit obligation and any changes in the effect of the asset ceiling are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings, through OCI, in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss at the earlier of:

- The date of the plan amendment or curtailment; and
- The date that the Company recognizes restructuring-related costs.

The Company recognizes the following changes in the defined benefit obligation under 'administrative expenses' in the profit and loss account:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and

- Interest expense

### Defined contribution plan

The Company also operates a recognized provident fund scheme for all its regular employees. Equal monthly contributions are made, both by the Company and by the employees, at the rate of 10% of the basic salary of the employee. Contributions made by the Company are charged to the profit and loss account.

### 5.12 Foreign currency transaction

Foreign currency transactions are recorded at the rates prevailing on the date of the transactions. Monetary assets and liabilities in foreign currencies are reported in Rupees, at the rates of exchange prevailing on the reporting date. Exchange gains and losses are included in income currently.

### 5.13 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are set off and the net amount is reported in the financial statements when there is a legally enforceable right to set off and the Company intends to either settle on a net basis, or to realize the assets and to settle the liabilities simultaneously.

### 5.14 Critical accounting estimates and judgments

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amount of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities, which are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of its revision and future periods, if the revision affects both current and future periods.

### 5.15 Earnings per share

The Company presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of Ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to Ordinary shareholders, and the weighted average number of Ordinary shares outstanding for the effects of all dilutive potential Ordinary shares, if any.

### 5.16 Dividend and appropriations to reserves

Dividend declared and appropriations, except for transfers to the statutory reserve, made subsequent to the balance sheet date, are recognized as a liability and recorded as changes in reserves, respectively, in the period in which these are approved by the directors / shareholders, as appropriate.

100 MM

### 5.17 Financial instruments

### Financial assets and financial liabilities

Financial instruments carried on the statement of financial position include cash and balances with treasury banks, balances with other banks, lending's to financial institutions, investments (excluding investment in associates and subsidiaries), advances, other assets, bills payable, borrowings, deposits and other liabilities. The particular recognition methods adopted for significant financial assets and financial liabilities are disclosed in the individual policy statements associated with these assets and liabilities.

### 5.18 Segment information

A segment is a distinguishable component of the Company that is engaged either in providing particular products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), and is subject to risks and rewards that are different from those of other segments.

### **Business Segments**

### (a) Corporate Finance

Corporate finance includes services provided in connection with mergers and acquisitions, project finance and the underwriting / arrangement of debt and equity instruments through syndications, Initial Public Offerings (IPO's) and private placements.

### (b) Trading and Sales

Trading and sales includes fixed income, equity, foreign exchange, credit, funding, own position securities, lending's and borrowings and derivatives for hedging and market making.

### (c) Others

Others includes functions which cannot be classified in any of the above segments.

### **Geographical Segments**

All the Company's business segments operate only in Pakistan.

- 14.2.1 This represents a Financing Facility for Storage of Agricultural Produce (FFSAP) obtained on concessional rates, for the objectives of developing agricultural produce, marketing it and the enhancement of storage capacities for agriculture produce. The loan availed under the facility is repayable within a maximum period of seven years, including a maximum grace period of six months and mark-up payable at 2.5% (2016: 2.5%) per annum. The Company has utilized the funds under this facility, by disbursing advances to an entity undertaking the relevant project.
- 14.2.2 This represents a SBP Refinance Facility under Finance Scheme for Renewable Energy Power Projects (PPRE) for developing and encouraging the private sector participation in small renewable energy power projects. The loan availed under the said scheme shall be payable in a maximum of 10 years with an inclusive grace period of maximum of 2 years at a concessional SBP service rate of 3.00% per annum.

#### Commitments to extend credits

The Company makes commitments to extend credit in the normal course of its business, but these being revocable commitments, normally do not attract any significant penalty or expense if the facility is unilaterally withdrawn. As at the balance sheet date, however, the Company's outstanding irrevocable commitments amounts to Rs. 947.813 million (2016: Rs.1,235.852 million).

For tax related contingencies, please refer note 26.2 to these financial statements.

## 26.2 Tax related contingencies

- 26.2.1 For the Tax Year 2011, a tax demand of Rs. 109.219 million was raised by Assistant Commissioner Inland Revenue (the "ACIR") by disallowing provision for bad debts, provision against non-performing loan and advances, credit for an installment of advance tax and Worker's Welfare Fund. Subsequently, the assessment was rectified. The Company had paid Rs. 15.109 million in protest on the issue of disallowing "provision against non-performing loan and advances" and submitted appeal before CIR(A). The appeal was decided in the favor of the Company and the tax deposited earlier was therefore turned into adjustable tax. However, the department has filed an appeal before ATIR against appellate order of CIR(A). The hearing of this appeal is yet to be fixed by ATIR.
- 26.2.2 For the Tax Year 2014, demand of Rs. 18.23 million was raised by the Taxation Officer by charging Worker's Welfare Fund. The Company filed an appeal before CIR(A) which was decided in favor of the Company. However, the department has filed an appeal before ATIR against the order of CIR(A) hearing of which is yet to be fixed.

Komens

27

- 26.2.3 For the Tax Year 2016, a tax demand of Rs. 82.54 million has been raised by the Taxation Officer mainly by disallowing provision against non-performing loans, suspended markup, disallowance of expenses attributable to capital gain, contending short payment of super tax and claim of tax credit. The CIR(A) has disposed of the appeal and major portion of the demand has been confirmed while disallowance of the tax credits is remanded
- 26.2.4 On the basis of opinion of its tax advisor and appellate history, the Company's management is confident of a favorable resolution of these matters and hence no provision has been made in these financial statements.

## 30 DEFINED BENEFIT PLAN

## 30.1 General description

The Company operates an approved funded gratuity scheme for all its regular employees. Contributions are made in accordance with an actuarial valuation. The latest actuarial valuation was carried out as at 31 December 2017.

The benefits under the gratuity scheme are payable on retirement, at the age of 60 years, or on earlier cessation of service, in lump sum. The benefit is equal to one month's last drawn gross salary for each year of eligible service or part thereof, subject to a minimum of one year of service.

## 30.12 Risk associated with defined benefit plan

The defined benefit plan exposes the Company to the following risks:

## Investment risk

The risk arises when the actual performance of the investments is lower than expectation, which may result in shortfall in funds needed to meet the related liabilities.

#### **Mortality risks**

The risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.

#### Salary increase risk

The risk that the final salary at the time of cessation of service is greater than what we assumed. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.

#### Withdrawal risk

The risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

## 32 COMPENSATION OF DIRECTORS AND EXECUTIVES

32.1 The Chief Executive and a Director are also provided with free use of Company maintained cars.

32.2 Executive represents all staff of the Company with gross salary exceeding Rs. 500,000.

32.3 Pursuant to the Company's Article of Association "The remuneration to be paid to any Director for attending the meetings of the Directors or a committee of Directors shall not exceed the limit approved by the Board of Directors".

## 33 FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity as carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings can not be calculated with sufficient reliability due to the absence of current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values. Since these are either short term in nature or, in the case of deposits, are frequently pre-priced.

The Company measures fair values using the following fair values hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1: Fair value measurement using quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the assets and liabilities that are not based on observable market data (i.e. unobservable inputs).

33.1 The Company has not disclosed the fair value for these financial assets and liabilities, as these are for short term and or re-priced over short term. Therefore their carrying amounts are reasonable approximation of fair value.

33.2 The Company's policy is to recognize transfer into and out of the different fair value hierarchy levels at the date, the event or change in circumstances, that caused the transfer occurred. There were no transfers between level 1 and level 2 during the year.

33.3 Currently no financial instruments are classified in level 3.

#### 35. RELATED PARTY TRANSACTIONS

The Company has related party relationships with entities in which its shareholders have any interest, key management personnel, directors and employees' funds. The Government of Pakistan (Ministry of Finance) is a related party of the Company; therefore all government authorities, agencies, affiliates and other organizations ("state-controlled entities") are related parties of the Company. Transactions with these state-controlled entities are not very significant and impracticable to quantify, for disclosure in these financial statements. Other entities which for its business acquisition or provision of services relies / depends to a greater extent on the Company / DFI i.e. major portion (50% or more) of its business (upstream or downstream) is also a related party.

Banking transactions with the related parties are executed substantially on the same terms, including mark-up rates and collateral, as those prevailing at the time for comparable transactions with unrelated parties and do not involve more than normal risk (i.e. under the comparable uncontrolled price method) other than those under terms of employment.

Details of balances outstanding at year end and transactions with related parties are as follows:

#### 36 CAPITAL ADEQUACY

## 36.1 Scope of application

The Basel III framework has been applied in accordance with BPRD Circular No. 6, dated 15 August, 2013. The Standardized Approach is used for calculating the Capital Adequacy for Market and Credit risks while the Basic Indicator Approach (BIA) is used for calculating the Capital Adequacy for Operational risk.

#### 36.2 Capital structure

For the main features of capital structure of the Company, please refer to note 36.7.

#### 36.3 Capital management

The Company's objectives when managing capital risks are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend to shareholders, return of capital to shareholders, issue new shares or sell assets to reduce debt. The Company has implemented the capital adequacy framework under the Basel - III regime. The Company, in line with the SBP guidelines, has adopted the standardized approach for credit, market risks and BIA approach for operational risk.

The Company's objectives when managing its capital are:

- a) To comply with the capital requirements set by the SBP;
- b) To safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns to shareholders and benefits to other stakeholders; and
- c) To maintain a strong capital base to support the development of its business.

The growth prospects of the Company are linked with the macroeconomic environment, industry conditions and its ability to attract quality assets. At present, the Company has restricted its market risk by not participating in secondary stock trading. It is engaged in disbursing quality assets in the loan segment.

The risk-weighted assets are measured by means of a hierarchy of five risk weights, classified according to the nature of, and reflecting an estimate of credit, market and other risks associated with each asset and counterparty, taking into account any eligible collateral or guarantees. A similar treatment is adopted for off-balance sheet exposure, with some adjustments to reflect the more contingent nature of the potential losses.

#### 36.4 Regulatory capital requirements

The SBP, vide BSD Circular No.19, dated 05 September, 2008, has set the Minimum Capital Requirement (MCR) for DFIs, up to Rs.6 billion. Further, the Company is also required to maintain a Capital Adequacy Ratio (CAR) of at least 10% of its risk weighted assets.

The paid up capital of the Company, as of 31 December, 2017, amounted to Rs. 9,116 million (2016: 9,116 million) while CAR stands at 93.68% (2016: 103.86%) as of that date.

The leverage ratio of the Company is 45.79% (2016: 57.56%). The total Tier 1 capital is Rs. 14,375.182 million (2016: 13,997.291 million) and the total exposure is Rs. 31,391.699 million (2016: Rs. 24,316.492 million)

- 28 Portion of deduction applied 50:50 to Tier-1 and Tier-2 capital based on pre-Basel III treatment which, during transitional period, remain subject to deduction from additional Tier-1 capital
- 29 Adjustments to Additional Tier 1 due to insufficient Tier 2 to cover deductions
- 30 Total regulatory adjustment applied to AT1 capital

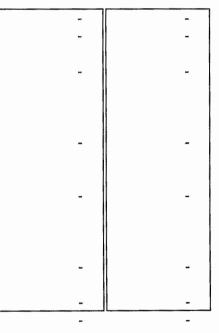

## 36.5.3 Tier 2 Capital: regulatory adjustments

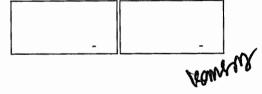

31 Portion of deduction applied 50:50 to Tier-1 and Tier-2 capital based on pre-Basel III treatment which, during transitional period, remain subject to deduction from tier-2 capital

2016

2017

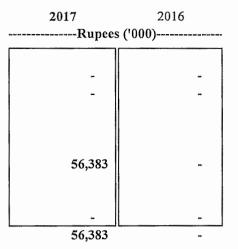

- 32 Reciprocal cross holdings in Tier 2 instruments of banking, financial and insurance entities
- 33 Investment in own Tier 2 capital instrument
- 34 Investments in the capital instruments of banking, financial and insurance entities that are outside the scope of regulatory consolidation, where the bank does not own more than 10% of the issued share capital (amount above 10% threshold)
- 35 Significant investments in the capital instruments issued by banking, financial and insurance entities that are outside the scope of regulatory consolidation
- 36 Total regulatory adjustment applied to T2 capital

## 36.5.4 Additional Information

## Risk Weighted Assets subject to pre-Basel III treatment

| Risk Weighted Assets subject to pre-Basel III treatment  |          |            |
|--|----------|------------|
| 7 Risk weighted assets in respect of deduction items (which during the transitional period will be risk weighted subject to Pre- |          |            |
| Basel III Treatment)   |          |            |
| ) of which: deferred tax assets  | -        |            |

|  | Required                         | Actual            | Required             | Actual               |
| CET1 to total RWA  | 6.00%                            | 93.08%            | 6.00%                | 102.26%              |
| Tier-1 capital to total RWA  | 7.50%                            | 93.08%            | 7.50%                | 102.26%              |
| Total capital to total RWA   | 10.00%                           | 93.68%            | 10.00%               | 103.86%              |
| Total capital plus CCB to total RWA  | 11.28%                           | 93.68%            | 10.00%               | 103.86%              |

\* As SBP capital requirement plus CCB of 11.28% (10% in 2016) is calculated on overall basis therefore, capital charge for credit risk is calculated after excluding capital requirements against market and operational risk from the total capital required.

## 37 RISK MANAGEMENT

Risk is an integral part of business and the Company aims at delivering superior shareholder value, by achieving an appropriate trade-off between risk and returns. Risk Management strategy is based on a clear understanding of various risks, disciplined risk assessment and measurement procedures and continuous monitoring. The risks that the Company takes are reasonable, controlled within its financial resources and credit competence. The primary objective of this risk management is to ensure that the process of achieving an appropriate balance between risks the Company wishes to accept (at a price that is commensurate to that risk) and risks the Company wishes to mitigate, or whenever capital is put at risk, is done in an objective, documented and transparent fashion and also to ensure that these risks are taken within predefined and pre-approved tolerance limits / levels.

The ultimate responsibility for risk management and setting of the risk management policy rests with the Board of Directors. The Board of Directors approves a policy framework and oversees the Risk Management function of the Company through the Risk Management Committee (RMC). RMC of the Board has been constituted to facilitate focused oversight of various risks. The main goals of Risk Management are to oversee the enterprise-wide risk policies and guidelines under the guidance of the Board of Directors and RMC, to establish and monitor limits, to set and manage decision processes and to implement risk assessment methods. Functional level committees oversee the implementation of risk management practices and exposure levels. Market and Liquidity Risks are managed by a well-represented Asset Liability Committee (ALCO), the Credit Management Committee, and Credit Risk Review Committee over see Credit Risk.

The Group Head of Risk Management and the Risk Management Function works with the Senior Management, ALCO and the Credit Management Committee on a day to day basis to address issues directly related to the policy as well as improve and refine the policy based on experiences and market

## 37.1 Credit risk

Credit risk is the potential for financial loss arising from borrower's or counterparty's inability to meet its obligations under a contract.

Credit Risk is the predominant risk type faced by the Company in its lending activities. All credit risk related aspects are governed by a credit policy approved by the Board of Directors. The policy outlines the type of products that can be offered, targeted customer profile, approval limits, and lending criteria. In order to assess the credit risk associated with any corporate financing proposal, variety of risks relating to the borrower and relevant industry are assessed.

A structured and standardized credit approval process is followed which includes a well established procedure of comprehensive credit appraisal and credit rating. The credit evaluation system comprises of well-designed credit appraisal, review and approval procedures for the purpose of emphasizing prudence in lending activities and ensuring the high quality of asset portfolio. Each credit proposal is evaluated on standalone basis as well as its implication on the Company's portfolio in terms of portfolio pricing and rating is also assessed. The internal credit rating methodologies have been developed for rating obligors. The rating serves as the key input in the approval as well as post approval credit monitoring. All credit applications and reviews are thoroughly analyzed by Credit Risk Management Function. The application approval process is further supplemented by regular review of the existing credit limits, overall credit portfolio and the monitoring of early warning indicators that can trigger a tightening of lending standards and an increase in the frequency and depth of credit portfolio review.

The Company is using Basel-III standardized approach to calculate risk weighted assets against credit risk.

#### 37.2 Liquidity risk

Liquidity risk is the potential loss to the Company, arising from either its inability to meet its obligation, or to arrange the requisite funding for its assets at a reasonable price.

This risk arises from mismatches in the timing of cash flows. The objective of the Company's liquidity management is to ensure that all foreseeable funding commitments can be met when due. The Company's Asset and Liability Committee is primarily responsible for the formulation of the overall strategy and oversight of liquidity management. The Company manages its liquidity risk by diversifying and ensuring the stability of its liability structure (funding mix). The risk management function generates and monitors the daily liquidity position of the Company.

The maturity profile of assets and liabilities is prepared based on their contractual maturity, except for assets and liabilities that do not have contractual maturity. In this regard, assumptions for the Company's maturity profile in respect of allocation of non-contractual items, based on their expected maturities, are deliberated, presented to and approved by the ALCO.

37.2.1 Maturities of assets and liabilities

## 37.2.2 Basel III liquidity requirement

The Basel Committee for Companying Supervision (BCBS) has introduced Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) under its BASEL III reforms. As part of Basel III implementation in Pakistan, SBP issued guidelines on 23 June 2016 via BPRD Circular No. 08 to implement liquidity standards in line with BCBS timelines, keeping in view the conditions as applicable in Pakistan. The Company is maintaining both the liquidity ratios, under Basel III, with a considerable cushion over and above the regulatory requirement to mitigate any liquidity risk.

## a) Liquidity Coverage Ratio (LCR)

Liquidity Coverage Ratio (LCR) aims to ensure that Company maintains an adequate level of unencumbered High Quality Liquid Assets (HQLA) which can easily be converted into cash at little or no loss of value in private markets, to withstand an acute liquidity stress scenario lasting for a period of 30 days horizon. LCR is defined as ratio of stock of HQLA to the total net cash outflows estimated for the next 30 calendar days.

The Company has been computing its LCR on monthly basis as per the instructions set out in SBP's guidelines issued on June 23, 2016.

#### Governance of liquidity risk management

Liquidity and related risks are managed through standardized processes established in the Company. Board and senior management are appraised about liquidity profile of the Company on periodic basis so as to ensure proactive liquidity management and to avoid abrupt shocks. The management of liquidity risk within the Company is undertaken within limits and other policy parameters set by ALCO, which meets monthly and reviews compliance with policy parameters. Day to day monitoring is done by the treasury while overall compliance is monitored and coordinated by the ALCO and includes reviewing the actual and planned strategic growth of the business and its impact on the statements of financial position and monitoring the Company's liquidity profile and associated activities. Company's treasury function has the primary responsibility for assessing, monitoring and managing Company's liquidity and funding strategy. Market, Operational & Liquidity Risk Management Division being part of risk management group is responsible for the independent identification, monitoring & analysis of risks inherent in treasury exposures. The Company has in place duly approved treasury investments policy and strategy along with risk tolerance/appetite levels. These are communicated at various levels so as to ensure effective liquidity management for the Company.

#### Funding strategy

The Company is a non deposit taking DFI and demand deposits remain nil, and thus is primarily equity driven presently. Dependence on COI is also low currently. Further, Company relies on short term interbank borrowing for stop gap funding arrangements but, it is less preferred source of liquidity. Within borrowing, source of funding are also diversified to minimize concentration. Usually interbank borrowing is for short term. However, going forward may move towards medium to long term borrowing following centralized funding strategy so as to ensure achievement of strategic and business objectives of the Company.

#### Liquidity risk mitigation techniques

Being DFI, the Company is a non deposit taking DFI and demand deposits remain nil. Dependence on COI is also low currently. Various tools are used to measure and monitor the possible liquidity risk. These include monitoring of different liquidity ratios like cash to Total Assets, financing to Total Assets, liquid assets to total Assets, borrowing to Total Assets as the company presently is primarily dependent on own equity and short term borrowing, and communicated to senior management and to ALCO forum regularly. Further, the Company also prepares the maturity profile of assets and liabilities to monitor the liquidity gaps over different time buckets. For maturity analysis, behavioral study techniques are also used to determine the behavior of non-contractual assets and liabilities based on historic data and statistical techniques. The Company also ensures to maintain statutory cash and liquidity requirements all times.

#### Liquidity stress testing

As per SBP BSD Circular No. 1 of 2012, Liquidity stress testing is being conducted under various stress scenarios applicable to DFIs. Shocks include withdrawals of wholesale/large deposits & borrowing. Results are escalated at the senior level to enable the senior management to take proactive actions to avoid any possible liquidity risk challenges for the Company.

#### Contingency funding plan

Contingency Funding Plan (CFP) is a part of liquidity management framework of the Company which identifies the triggers events that could cause a liquidity crises and describes the actions to be taken to manage the crises. At PCICL, a comprehensive liquidity contingency funding plan is prepared which highlights liquidity management chain that needs to be followed. Responsibilities and crises management phases are also incorporated in order to tackle the liquidity crises. Moreover, CFP highlights possible funding sources, in case of a liquidity crises.

#### Main drivers of LCR results

Main drivers of LCR results are High Quality Liquid Assets (HQLA) and net cash outflows. Net cash outflows are mainly expected maturities of borrowings and financing commitments net of cash inflows which consist of inflows from financing and fully performing exposure up to one month. The inputs for calculation of LCR are prescribed by the regulator.

#### Composition of High Quality Liquid Asset-HQLA

High Quality Liquid Assets composed of Level-1 asset which can be included in the stock of liquid assets at 100% of their market value. As at 31 December 2017, Company maintained average HQLA of Rs. 8.896 million. Company's total HQLA constituted on Level 1, Level 2A and Level 2B assets. Average level 1 assets of the Company primarily include Cash & Treasury Balances (including balances held with SBP) and unencumbered investment in government securities.

#### **Concentration of funding sources**

At 31 December 2017, top liabilities and their percentage contribution to Total Liabilities of the Company were borrowings 98%.

#### Currency mismatch in the LCR

During the year 2017, other than Pak Rupee, Company does not have any significant foreign currency constituting more than 5.00% of the balance sheet size of the Company. Currency mismatch is not the main driver of Company's LCR.

## Intra-period changes (In LCR) as well as changes in liquidity risk over time

Company's LCR as at 31 December 2017 is 224.02%, with the maximum and minimum ratios of 14,007% & 90.56% during the year respectively.

#### Other inflows and outflows

There are no other inflows and outflows in the calculations of LCR other than those that are already covered in the disclosure of LCR.

#### Derivative exposures and potential collateral calls

The Company has no exposure to any counter party that could lead to a potential collateral call arising out of derivative transactions.

b) Net Stable Funding Ratio (NSFR)

The objective of Net Stable Funding Ratio (NSFR) is to reduce funding risk over a longer time horizon by requiring Company's to fund their activates with sufficiently stable sources of funding on ongoing basis. DFIs are required to maintain NSFR requirement of at least 100% on an ongoing basis.

#### 37.3 Market risk

Market Risk arises from changes in market rates such as Interest Rates, Foreign Exchange Rates, Equity Prices, credit spreads and/or commodity prices as well as their correlations and volatilities resulting in a loss to earnings and capital. Market risk pertaining to the trading book consists of positions in financial instruments held either with trading intent or in order to hedge other elements of the trading book. The Company does not have a defined trading book and all investments are classified as Available-For-Sale or Held-to-Maturity. Due to diversified nature of investments in banking book, the Company is primarily subject to interest rate risk. The Company, in accordance with its Joint Venture agreement, is not allowed to engage in secondary market equity trading. The Company is using Basel-III standardized approach to calculate risk weighted assets against market risk exposure.

#### 37.3.1 Interest rate risk

Interest rate risk is the risk that assets value will change due to change in the market interest rates. The Company manages its interest rate risk by entering into floating rate agreements with its customers. Major portion of the credit portfolio is linked to floating rate. To further keep the Company abreast of the interest rate risk, an Asset and Liability Committee (ALCO) meets regularly to discuss the interest rate risk strategy. Interest rate risk profile is also prepared on a monthly basis to ascertain the interest rates movements with regard to the portfolio while also anticipating policy rate movements.
