1 STATUS AND NATURE OF BUSINESS

Pak China Investment Company Limited (the Company) was incorporated in Pakistan as a public limited company on 27 July 2007. The registered office of the Company is situated at 13th Floor, Saudi Pak Tower, Blue Area, Islamabad. The Company is a 50:50 joint venture between the 'Government of China' and 'Government of Pakistan' through China Development Bank and Ministry of Finance, respectively. The main objective of the Company is to invest in the financial sector and infrastructure projects.

The Company commenced business after obtaining the Certificate of Commencement of Business from the Securities and Exchange Commission of Pakistan (SECP) on 02 November 2007, and the permission to commence business from the State Bank of Pakistan (SBP) on 10 January 2008.

2 BASIS OF PRESENTATION

These financial statements have been presented in accordance with the format prescribed by SBP's BPRD Circular letter No. 5 dated 22 March 2019.

2.1 STATEMENT OF COMPLIANCE

- 2.2 This condensed interim financial information has been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards IFRS issued by the International Accounting Standards Board (IASB) and Islamic Financial accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Act, 2017 provisions of and directives issued under the Banking Companies Ordinance, 1962, the companies Act, 2017 and directives issued by the SBP and the Securities and Exchange Commission of Pakistan (SECP). Whenever the requirements of the Banking Companies Ordinance, 1962, Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.
- 2.3 The condensed interim financial statements do not include all the information and disclosures required in the audited annual financial statements, and should be read in conjunction with the audited annual financial statements for the financial year ended 31 December 2018.

2.4 Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning after 2019:

Amendment to IFRS 3 'Business Combinations' – Definition of a Business (effective for business combinations for which the acquisition date is on or after the beginning of annual period beginning on or after 01 January 2020). The IASB has issued amendments aiming to resolve the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The amendments clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments include an election to use a concentration test. The standard is effective for transactions in the future and therefore would not have an impact on past financial statements.

Amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors (effective for annual periods beginning on or after 1 January 2020). The amendments are intended to make the definition of material in IAS 1 easier to understand and are not intended to alter the underlying concept of materiality in IFRS Standards. In addition, the IASB has also issued guidance on how to make materiality judgements when preparing their general purpose financial statements in accordance with IFRS Standards.

3 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies and methods of computation adopted in the preparation of these condensed interim financial statements are consistent with those applied in the preparation of the audited annual financial statements for the year ended 31 December 2018 except for changes as indicated below.

In the current year, the Company, for the first time, has applied IFRS 16 Leases .

IFRS 16 introduces new or amended requirements with respect to lease accounting. It introduces significant changes to the lessee accounting by removing the distinction between operating and finance leases and requiring the recognition of a right-of-use asset and a lease liability at the lease commencement for all leases, except for short-term leases and leases of low value assets. Details of these new requirements are described in Note 4. The impact of the adoption of IFRS 16 on the Company's condensed interim financial statements is described below.

The date of initial application of IFRS 16 for the Company is 01 January 2019. The Company has applied IFRS 16 using the modified retrospective approach, without restatement of the comparative information.

Impact of the new definition of a lease

The Company has made use of the practical expedient available on transition to IFRS 16 not to reassess whether a contract is or contains a lease. Accordingly, the definition of a lease in accordance with IAS 17 and IFRIC 4 will continue to be applied to leases entered or modified before 01 January 2019.

The change in definition of a lease mainly relates to the concept of control. IFRS 16 determines whether a contract contains a lease on the basis of whether the customer has the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company applies the definition of a lease and related guidance set out in IFRS 16 to all lease contracts entered into or modified on or after 01 January 2019 (whether it is a lessor or a lessee in the lease contract). In preparation for the first-time application of IFRS 16, the Company has carried out an assessment that the new definition in IFRS 16 will not change significantly the scope of contracts that meet the definition of a lease for the Company.

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognises right to use assets & corresponding finance lease liability with respect to all lease arrangements in which it the lessee, except for short term leases (defined as leases with lease term of 12 month or less) and leases of low value assets. For these leases the Company recogniness the lease payments as an operating expense on straight line basis over term of lease unless another systematic basis is more representative of the time pattern in which economic benefit from the leased assets are consumed. The lease liability is initially measured at the present value of the lease payment that are not paid at the commencement date, discounted at incremental borrowing rate.

Lease payments included in the measurement of lease liability comprise:

- Fixed lease payments (including in substance fixed payments), less any lease incentives;
- Variable lease payments that depends on index or rate, initially measure using the index or rate at commencement date;
- The amount expected to be paid by lessee under residual value guarantee;
- The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.
- The lease liability is presented as a separate line in the condensed interim statement of financial position. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payment made.
- the company remeasures the lease liability (and makes corresponding adjustments to the related right -of-use asset) whenever;
- the lease term has changed or there is a change in the assessment of exercise of purchase option, in which case the lease liability is remeasured using revised lease payments and revised discount rate.
- The lease payments change due to changes in an index or rate or change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using initial discount rate (unless the lease payments change is due to a change in floating interest rate, in which cases revised rate is used).
- a lease contract is modified and ease modification is not accounted for as separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using revised discount rates.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Company incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a part of Fixed assets in the condensed interim statement of financial position.

The Company applies IAS 36 Impairment of Assets to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

Variable rents that do not depend on an index or rate are not included in the measurement the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line "other expenses" in the statement of profit or loss.

As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Company has not used this practical expedient.

Impact on Lessee Accounting

IFRS 16 changes how the Company accounts for leases previously classified as operating leases under IAS 17, which were off-balance-sheet.

Applying IFRS 16, for all leases (except as noted below), the Company:

- recognises right-of-use assets and lease liabilities in the condensed interim statement of financial position, initially measured at the present value of future lease payments;
- recognises depreciation on right-of-use assets and interest on lease liabilities in the profit and loss account; and
- separates the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within operating activities) in the consolidated statement of cash flows.

Lease incentives (e.g. free rent period) are recognised as part of the measurement of the right-of-use assets and lease liabilities whereas under IAS 17 they resulted in the recognition of a lease incentive liability, amortised as a reduction of rental expense on a straight-line basis.

Under IFRS 16, right-of-use assets are tested for impairment in accordance with IAS 36 Impairment of Assets. This replaces the previous requirement to recognise a provision for onerous lease contracts.

For short-term leases (lease term of 12 months or less) and leases of low-value assets (such as personal computers and office furniture), the Company has opted to recognise a lease expense on a straight-line basis as permitted by IFRS 16. This expense is presented within operating expenses in the profit and loss account.

Financial impact of initial application of IFRS 16

The tables below show the amount of adjustment for each financial statement line item affected by the application of IFRS 16 for the current period.

Impact on profit for the period			
			For the quarter 31 March 2019

Retained earnings	-	-	-

The application of IFRS 16 has an impact on the condensed interim statement of cash flows of the Company.

Short-term lease payments, payments for leases of low-value assets and variable lease payments not included in the measurement of the lease liability as part of operating activities (The Company has included these payments as part of payments to suppliers and employees)

105,808,301

Cash paid for the interest portion of lease liability as either operating activities or financing activities, as permitted by IAS 7 (The Company has opted to include the interest paid as part of operating activities); and

Cash payments for the principal portion for leases liability, as part of financing activities.

The adoption of IFRS 16 did not have an impact on net cash flows.

Total impact on total liabilities and equity

4 Critical accounting estimates and judgments

The basis for accounting estimates adopted in the preparation of this condensed interim financial information is the same as that applied in the preparation of the financial statements for the year ended 31 December 2018.

5 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Company are consistent with those disclosed in the financial statements for the year ended 31 December 2018.

10.3.1 General Provision is maintained at the rate of 2% of performing portfolio of advances.

10.3.2 Details and impact of Forced Sale Value (FSV) benefit

The net FSV benefit already availed during the period has reduced by Rs. 15.5 million (2018: availed Rs. 119.2 million), which has resulted in increased charge for the period by the same amount. Had the FSV benefit not reduced, before and after tax profit would have been higher by Rs. 15.5 million (2018: Lower by Rs. 119.2 million) and Rs. 11.2 million (2018: Lower by Rs. 74.66 million) respectively. Unappropriated profit to that extent is not available for distribution by way of cash or stock dividend.

				FILE CONTRACTOR OF THE PROPERTY OF THE PROPERT

- 15.1 This represents SBP Refinance Facility under Finance Scheme for Renewable Energy Power Projects (REPP) for developing and encouraging the private sector participation in small renewable energy power projects. The loan availed under the said scheme shall be payable in a maximum of 10 years with an inclusive grace period of maximum of 2 years at a concessional SBP service rate of 2.00%.
- This represents first draw down from Term Loan Facility of Rs. 2 billion from a commercial bank payable in maximum of 4 years with an inclusive grace period of maximum of 2 years. Markup payable is on quarterly basis at the rate of 3MK + 0.15% p.a. The bank has first pari passu charge over all present and future loans, advances (including leases), investments and book debts / receivables of the Company for Rs. 2,667 million inclusive of 25% margin.

27.1 Tax status

- 27.1.1 For the Tax Year 2011, a tax demand of Rs. 109.219 million was raised by Assistant Commissioner Inland Revenue (the "ACIR") by disallowing provision for bad debts, provision against non-performing loan and advances, credit for an installment of advance tax and Worker's Welfare Fund. Subsequently, the assessment was rectified. The Company had paid Rs. 15.109 million under protest and preferred an appeal before CIR(A). The CIR (A) decided the appeal in the favor of the Company and the tax deposited under protest returned to refund. The instant refund was adjusted against tax demand for tax year 2014. However, the department has filed an appeal before ATIR against appellate order of CIR(A). The hearing of this appeal is yet to be fixed by ATIR.
- 27.1.2 For the Tax Year 2013, a tax demand of Rs. 95.01 million was raised by the Taxation Officer by disallowing provision for non performing loans, profit on debt, other provisions and charging Workers Welfare Fund. The CIR (A) upheld the orders of the assessing officer. The Company filed appeal before ATIR against the order of CIR (A) and ATIR upheld the contentions of the appellate orders of the CIR (A). Returned refund of Rs. 15 million pertaining to tax year 2011 was adjusted against the instant demand and PCICL paid balance amount of Rs. 49 million under protest. The Company filed writ petition before High Court, which is yet to be fixed for hearing.
- 27.1.3 For the Tax Year 2014 and 2015, assessment was amended by the ACIR in terms of Section 122 of the Ordinance, creating an aggregate tax demand amounting PKR 128 million on Provsions, Apportionment, super tax and default surcharge. PCICL submitted appeal before the CIR(A) on the amended assessment order which has been disposed of in favor of tax department. Later PCICL attained stay form tax department and upon the expiry of stay, payment of Rs. 38.5 million was made to tax department as a cummulative payment for all the pending issues pertaining to tax year 2014 and 2015. PCICL pleaded for further stay and a stay of 40 days was extended by ATIR. PCICL filed writ petition for interim relief before High court. The High Court has has granted the stay recovery for outstanding demand and also restrained the tax department to take extreme measures. However, the main appeal is pending for fixation by ATIR and the order is expected to be partially in favor of PCICL.
- 27.1.4 For the Tax Year 2016, a tax demand of Rs. 82.54 million has been raised by the Taxation Officer mainly by disallowing provision against non-performing loans, suspended markup, disallowance of expenses attributable to capital gain, contending short payment of super tax and claim of tax credit. The CIR(A) has disposed of the appeal and major portion of the demand has been confirmed while disallowance of the tax credits is remanded back. Therefore, an appeal effect order from the assessing officer is awaited.
- 27.1.5 On the basis of opinion of its tax advisor and appellate history, the Company's management is confident of a favorable resolution of these matters and hence no provision has been made in these financial statements.

30 FAIR VALUE MEASUREMENTS

The fair value of quoted securities is based on quoted market price. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits, cash & bank balances and borrowings can not be calculated with sufficient reliability due to the absence of current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

30.1 Fair value of financial assets

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1 Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).
- 30.2 The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

32 RELATED PARTY TRANSACTIONS

The Company has related party relationships with entities in which its shareholders have any interest, key management personnel, directors and employees' funds. The Government of Pakistan (Ministry of Finance) is a related party of the Company; therefore all government authorities, agencies, affiliates and other organizations ("state-controlled entities") are related parties of the Company. Transactions with these state-controlled entities are not very significant and impracticable to quantify, for disclosure in these financial statements. Other entities which for its business acquisition or provision of services relies / depends to a greater extent on the Company / DFI i.e. major portion (50% or more) of its business (upstream or downstream) is also a related party.

Banking transactions with the related parties are executed substantially on the same terms, including mark-up rates and collateral, as those prevailing at the time for comparable transactions with unrelated parties and do not involve more than normal risk (i.e. under the comparable uncontrolled price method) other than those under terms of employment.

Details of transactions with related parties during the period, other than those which have been disclosed elsewhere in these financial statements are as follows:

- 34 GENERAL
- Events after the reporting date

There are no adjusting events after that the balance sheet date that may have an impact on the financial statements.

- 34.2 Captions, as prescribed by BPRD Circular No. 5 of 2019 issued by the SBP, for which there are no amounts, have not been reproduced in these financial statements except for the statement of financial position and profit and loss account.
- Figures have been rounded off to the nearest Rupee, unless otherwise stated.
- The VIS has issued a long term credit rating of AAA, and the short term rating of A1+, for the Company,
- RECLASSIFICATION OF COMPARATIVE FIGURES 35
- There have been no significant reclassifications in these financial statements except an amount Rs.68 million for the period ended 31 March 2018, which has been reclassified from Non-Interest Income to Interest Income.
- 35.2 The SBP vide BPRD Circular No. 5 of 2019 has amended the format of condensed interim financial statements of banks/DFIs. All banks/DFIs are directed to prepare their interim financial statements on the revised format effective from the accounting year beginning on 01 January 2019. Accordingly, the Company has prepared these financial statements on the new format prescribed by the State Bank of Pakistan. The adoption of new format has not resulted in significant reclassification of comparative information and accordingly a third statement of financial position as at the beginning of the preceding period has not been presented in accordance with the requirements of International Accounting Standard 1 - Presentation of Financial Statements. The amended format also introduced certain new disclosures and has resulted in the following changes:
 - Surplus on revaluation of assets (note 18) amounting to Rest 32.7 million as at 31 March 2019 (31 March 2018: Rs 83.0 million) which were previously shown below equity as required by the Companies Ordinance. 1984 has now been included as part of the equity
 - Intangibles (note 10) amounting to Rs 0.189 million (2018: Rs 0.24 million) which were previously shown as part of fixed assets (note 9) are now shown separately on the statement of financial position.
- DATE OF AUTHORIZATION

These financial statements were authorized for issue in the Board of Directors meeting held on 2
